

SOCIAL THEORY & DESIGN THINKING

(2410302)

Politics & Global Studies (PGS)

1st Semester 2025 (1/2025-26)
Tuesday: 1-4 p.m.
Building POL3, Room M08

Quiz#1: Overview

Date: Tuesday, September 23, 2025

Time: Preparing Session: 1-2 p.m. (You will be allowed to converse with you classmates, open books and review your notes in the first hour in Room M08). However, I suggest that you should plan to be seating in one of the stations in the computer room upstairs, where the actual quiz will be held, at least 15-30 minutes before the quiz will start. You will need to make sure that your computer is working properly and to log in with your myCourseView account. You will do the actual quiz via that platform.

Room: The Main Computer Room on 7th Floor (708/1; Building POL3)

Actual Quiz Time: 2-4 p.m.

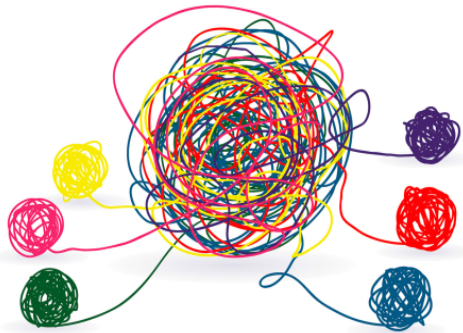

Format: Typewritten Examination, Selecting FOUR Items/Questions from the list of ALL Provided Items/Questions, Short Paragraphs/Essays (NO MORE THAN 2 A4 Typewriting Pages Allowed for Each Item/Question)

Scoring: 5 Points Maximum for Each Question; 5 X 4 = 20 Points Maximum for

Total Scoring (20% of Final Grade)

An Outline of the 11 Questions/Items (Only 4 Questions/Items Will Be Chosen):
Topics/Themes/Concepts/Theories Covered in Quiz#1 (Overview Session):

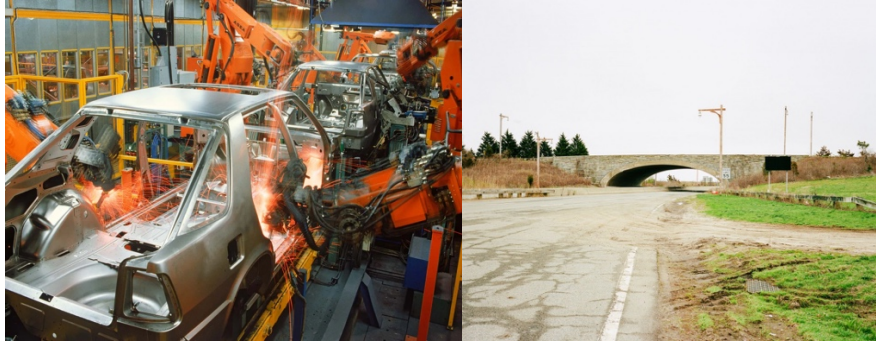

- *Richard Buchanan's* "Design Thinking as the New Liberal Art of Technological Culture; How do "wicked problems" play out in this relatively newest definition/trend of design/design thinking?" (Week 3)
- *Jeff Conklin's* "Wicked Problems and Social Complexity as the Primary Obstacles to Achieve the Collective Intelligence in Organizational Settings; How can we break down such obstacles?" (Week 3)

- *Donald Norman's* "Human-Centered Design (HCD) and the Fundamental Principles OR Key Parameters for Analyzing and Criticizing Designs; What can be considered 'good' or 'bad' designs?" (Week 4)
- *Donald Norman's* "Service Design as an Emerging Design Discipline; Can the Human-Centered Design (HCD) be applicable to service design?" (Self-Study Only by Reading Norman's *Living With Complexity*) (Week 4)

- *Mihaly Csikszentmihalyi & Eugene Rochberg-Halton's* "The Relationship between People and Things; How do things, objects, and technologies help cultivating the self and not the other way around?" (Week 5)
- *Sherry Turkle's* "Evocative Objects and the Classification/Distinction of Technologies; How do evocative objects relate to such scheme of classification/distinction? Can the same object belong to the different categories of technology?" (Week 5)

- *Langdon Winner's* "Technological Somnambulism and Some of the Ways that Artifacts Can Have Political Qualities; In what sense do the author's claims regarding the political artifacts reflect his stance on technological somnambulism?" (Week 6)
- *Langdon Winner's* "Regime of Instrumentality and the Democratic Wisdom of Design/Design Thinking; Why do we need to design or engineer anything in our society with some democratic oversight in mind?" (Week 6)

- *Ruth Schwartz Cowan's* "Technologies and Gender; How do technologies and sociotechnical systems possibly create some winners and losers along the socioeconomic and cultural lines?" (Week 7)
- *George Chauncey's* "Queer Tactics for the Uses of Space; How does knowing the peoples' strategies for navigating space in everyday life shape design/design thinking?" (Extra Class on Week 7: Made-Up for Week 2)
- *Sara Ahmed's* "Queer Use as the Cutting-Edge Conception and Practice for Design/Design Thinking; How can thinking and doing 'queer use' turn any designs into political projects?" (Extra Class on Week 7: Made-Up for Week 2)

NOTE: This is just an outline of the actual questions/items on the actual Quiz#1. It aims to give you the scope and substance that you can expect on the actual exam. I reserve the right to modify it without a further notice.

Grading Guideline and Rubric:

5 = Exemplary Answer or Completion (of an Item)

The answer or completion (of an item) not only contains the main points (100%) but goes beyond them to provide a critique of their veracity and/or an analysis using an example or case study. The writing is clear, measured, and inspiring. Sharp attempts to integrate the points.

4 = Quality Answer or Completion (of an Item)

The answer or completion (of an item) is accurate and contains most (90%) of the points that needed to be included. The writing is mostly clear and easy to follow. Correct attempts to make connections and comparisons.

3 = Acceptable Answer or Completion (of an Item)

The answer or completion (of an item) contains almost (75%) all of the points that needed to be included. The writing is clear, if uninspired. Some attempts to integrate the points.

2 = Minimally Acceptable Answer or Completion (of an Item)

The answer or completion (of an item) contains one or two basic facts that are correct but may also have incorrect statements as well. Inadequate organization or development. Structure of the answer is not easy to follow. No connections or comparisons provided.

1 = Unacceptable Answer or Completion (of an Item)

The answer or completion (of an item) has several errors in both conceptual level and communication clarity. Multiple mechanical errors or a complete failure to answer the question.

0 = No Answer or Completion of (an Item) Attempted

-- GOOD LUCK!
