

LECTURE 1 AN INITIAL GLIMPSE AT THE SCIENCE OF PSYCHOLOGY

Assoc. Prof. Kullaya Pisitsungkagarn
Ph.D. & DPsych.

OUTLINE FOR THE LECTURE

- Psychology
- Course outline, sample course content, evaluation criteria, & classroom management

PSYCHOLOGY

PSYCHOLOGY

- Write down two words that come up to your mind when you hear the word “psychology”?
- Send the answers into the course line group, using the QR code below:

PSYCHOLOGY

- Psychology: The science that studies human minds and functioning (i.e., our feelings, thinking patterns, behaviors, and underlying physiological responses).

PSYCHOLOGY

- Psychology accumulates knowledge (based on research evidence) about human minds and applies such knowledge to solve practical daily problems.

PSYCHOLOGY: WHAT IS NOT

- Psychology is not:
 - Mindreading
 - Shoe/Ice cream licking style personality quiz
 - Gut feelings

PSYCHOLOGY: RESEARCH EVIDENCE

- Empirical, or research, evidence helps determine if a relevant body of knowledge could be considered psychology.

PSYCHOLOGY: ETHICAL CONSIDERATIONS

- Principle A: Beneficence & Nonmaleficence
- Principle B: Fidelity & Responsibility
- Principle C: Integrity
- Principle D: Justice
- Principle E: Respect for People's Rights and Dignity

Ethical Principles of Psychologists
and Code of Conduct
Including 2010 Amendments

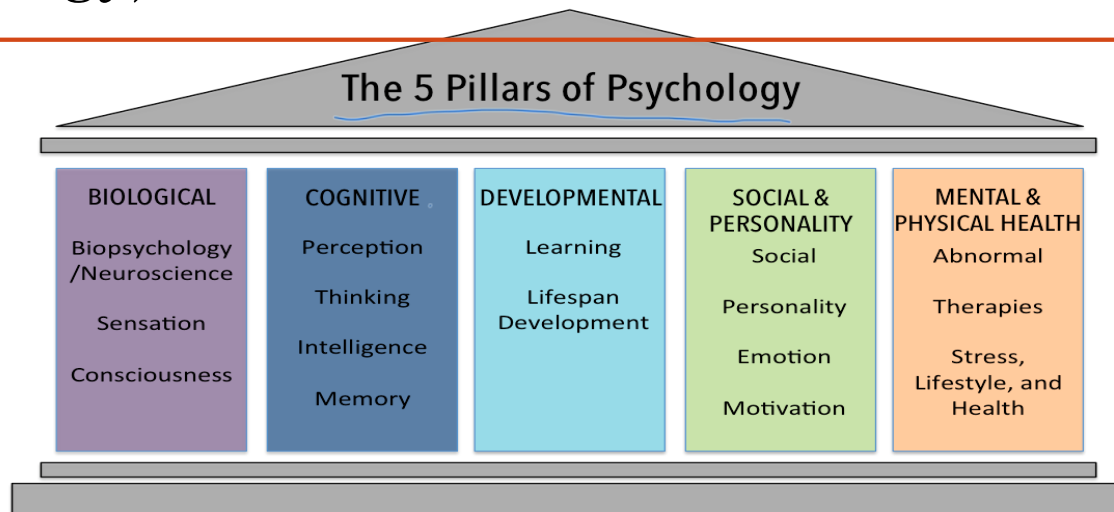

DIFFERENT DOMAINS IN PSYCHOLOGY

- There are different domains in psychology.
- Whereas some are more theory-based, others are more application-based.

DIFFERENT DOMAINS IN PSYCHOLOGY

- Theory-based: Focusing on accumulating theoretical knowledge (e.g., biological, cognitive, social, developmental psychology).
- Application-based: Focusing on applying psychological knowledge to solve daily problems and enhance daily functioning (e.g., counseling/clinical, environmental, forensic, sport psychology).

PSYCHOLOGY

- What kinds of problems can be resolved by psychology?
- Please share your answers and send an answer into the class line group note.

PSYCHOLOGY FOR LIFE AND WORK

- Psychology can be applied to enhance your adjustment in life and work:
 - Adjustment is “the psychological processes through which people manage or cope with the challenges and demands of daily life”.

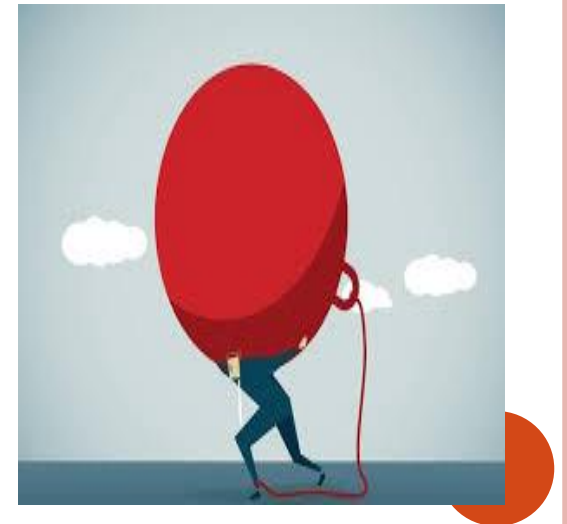

ADJUSTMENT & TECHNOLOGICAL PROGRESS

- Often, adjustment in daily life and work is taken for granted.
 - Sometimes, we simply assume that technological progress will resolves any adjustment difficulties.
 - Based on the “Paradox of Progress,” adjustment and technological progress do not have to go hand in hand.

ADJUSTMENT & TECHNOLOGICAL PROGRESS

- With technological progress, modern life can be complex.
 - Rapid cultural changes can be overwhelming.
 - Excessive materialism can weaken social ties.
 - Traditional sources of emotional security (e.g., family, community, and religion) can become weakened.
 - Our sense of well-being can be undermined.

SAMPLE APPLICATION: ADJUSTMENT DIFFICULTIES

- While technological advancement facilitates our living, adjustment difficulties can occur:
 - Stress
 - Relationship problems
 - Poor physical and psychological health
 - Low work-life balance

SAMPLE APPLICATION: ADJUSTMENT DIFFICULTIES

- Sharing:
 - Your own psychological tips to deal with adjustment difficulties:

TOPICS ADDRESSED TO ENHANCE YOUR ADJUSTMENT

**SAMPLE COURSE CONTENT,
COURSE OUTLINE,
EVALUATION CRITERIA, &
CLASSROOM MANAGEMENT**

Domain	Lecture	Sample Topics
Self-awareness Mind & Body Enhancement (Ls. 1-4)	Understanding your mind The science of psychology Mind-body connection	Psychological investigations Personality types Stress Emotional eating & addictive behaviors
Building Social Capital (Ls. 6-9)	Social influence Social capital Communication Relationship enhancement	Self-concept & self-esteem Bias & people perception Love & relationship building Conflict management Assertiveness
Skills for Work Enhancement (Ls. 11-14)	Career Exploration Goal setting Dealing with insecurities & failure Using psychological support	Value Exploration Dealing w/ self-doubt Handling failure Enhancing self-efficacy Managing mental health problems

LEARNING ASSIGNMENTS (SEE MORE INFORMATION IN THE COURSE SYLLABUS)

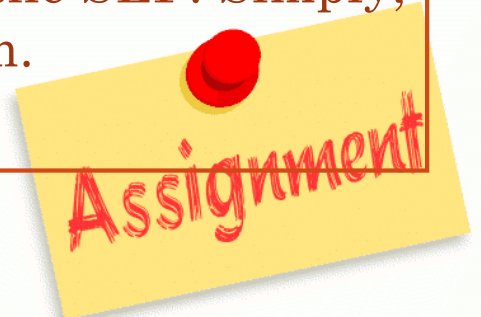

- **Article Evaluation Project: Group Activity (5-6 students)**
 - The group research on a trustworthy yet reader-friendly article (i.e., Psychology Today) on ONE topic learned in class (refer to the last page of the syllabus for relevant topics).
 - Present a summary of the article to the class and comment on what the group agree and disagree with the article as well as raise relevant questions.
 - Format: 6-8-slide PPT presentation

LEARNING ASSIGNMENTS (SEE MORE INFORMATION IN THE COURSE SYLLABUS)

○ Self-enhancement Project

- Each student works on a whole-semester project in applying the knowledge learned to resolve one of their psychological problems.
 - Format: 2-3-page 1.5-space word document
 - The assignments have 4 parts: 1) the introduction of ONE worthwhile psychological problem, 2) 2-3 explanations of the problem; 3) 2-3 psychological-based solutions; 4) 2-3 possible problems in the solutions implementation, their impact ratings, and ways to prevent/reduce each.
- **NB Do not** refer to a psychological disorder in the SEP. Simply, focus on ONE sub-clinical psychological problem.

Assignment

LEARNING ASSIGNMENTS (SEE MORE INFORMATION IN THE COURSE SYLLABUS)

○ Reflection Logs

- After learning each module, each student will outline 2 ways in which they can apply the learning to clarify and/or resolve their own psychological problem.
- Conducted the last 30 minutes of each module examinations (i.e., in Meetings 5, 10, and 15).
- Format: In-class 1-page written response.
- The reflections can be used in support for their preparation of the Self-enhancement Project.

COURSE OUTLINE, EVALUATION CRITERIA, & CLASSROOM MANAGEMENT

- Course Outline & Evaluation Criteria
 - Please refer to the course syllabus
- Learning Support
 - Kahoot! will be used for your comprehension check.
 - Word handout summary is added to aid your learning.
- CU classroom attendance policy is strictly reinforced.
- PDPA considerations
